For serious car collectors wanting to add to their portfolio, the new Tesla Model S is the world's first premium sedan built from the ground up as an electric vehicle. Its remarkably low center of gravity offers the responsiveness and agility expected from the best sports cars, while providing the quality of a luxury performance sedan. Additionally, the Model S accelerates from 0-60 in 3.2 seconds, making it the fastest 4-door vehicle ever built. And since it's electric, it's better for the environment too!
